Double-Sided Outdoor Wall Sconce

Beam-D is an outdoor wall sconce that provides aesthetic lighting to facades with its symmetrical upward and downward light distribution. Its cylindrical form and minimalist design integrate seamlessly with architectural structures. It offers decorative and functional lighting on building facades. Its compact design and dual-directional COB LED structure create balanced light patterns on wall surfaces. It provides a stylish solution that highlights architectural details in entrances, hotels, residential projects, commercial buildings, and landscape applications.

Its aluminum housing and IP65 protection class ensure resistance to harsh outdoor conditions. Available in black, white, and anthracite, it adapts to various architectural styles. Its aesthetic appearance, long lifespan, and dual-directional light effect make it an ideal choice for outdoor lighting.
