IP54 Surface Mounted Wall Sconce

Edge is a modern wall sconce solution for architectural surfaces with its sloping geometric form and surface mounting. Thanks to its opal diffuser, it distributes light homogeneously, creating comfortable and balanced lighting. With its DKP sheet metal body and IP54 protection class, it offers resistance to dust and moisture, making it suitable for both indoor and protected outdoor applications.

Preferred in corridors, entrance areas, stairwells, hotels, residential projects, and social spaces, Edge adds an aesthetic touch to architectural lighting projects with its simple design, ease of surface mounting, and modern appearance.
