

COMFORT-GS

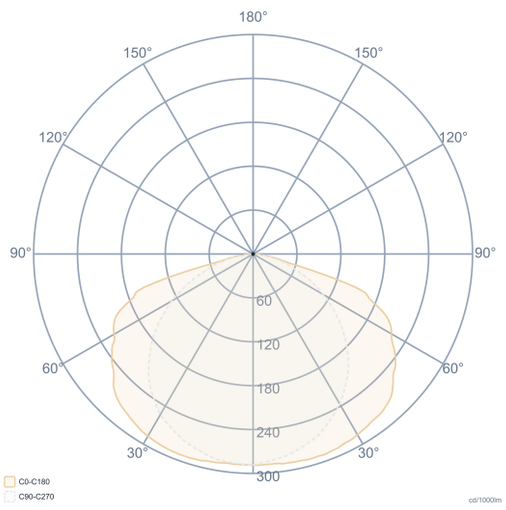

02145

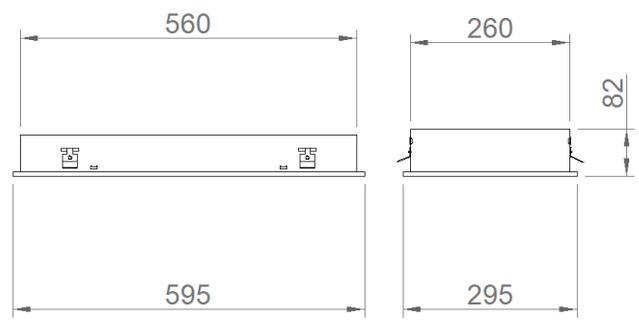

Symmetrical Fixture with Concealed Light Source

Comfort GS offers high visual comfort with its deep reflector structure and design that provides symmetrical light distribution. Thanks to the light source hidden within the reflector sheet, glare is controlled while ensuring even and homogeneous light distribution throughout the space.

With its 30x60 cm dimensions, it creates comfortable and controlled lighting, especially in offices, educational buildings, commercial areas, and general lighting applications. Its symmetrical light distribution provides effective solutions for balanced lighting requirements in work and living spaces. With its recessed mounting structure, Comfort GS integrates seamlessly with the ceiling surface, offering a simple look and combining architectural aesthetics with high visual comfort, providing a functional lighting solution for modern projects.
