COMFORT-GA

02148

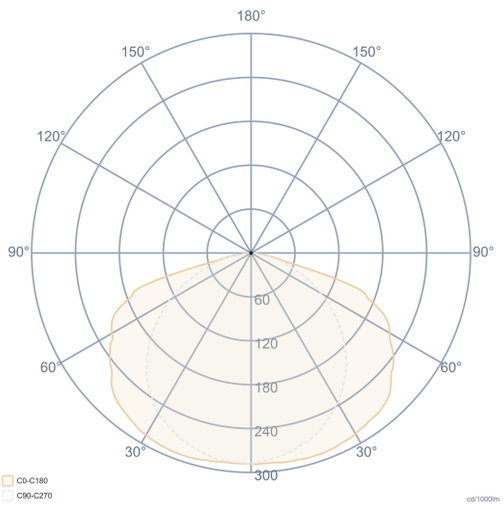

Asymmetrical Luminaire with Concealed Light Source

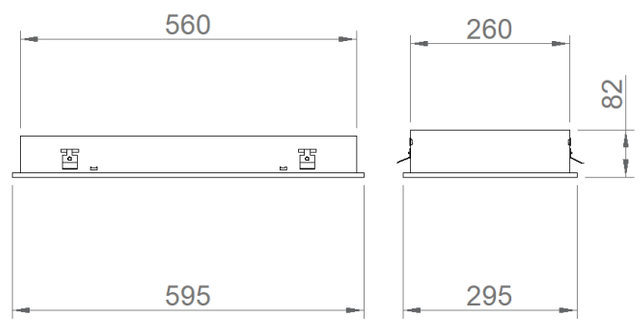

Comfort-GA offers high visual comfort with its deep reflector structure and design that provides asymmetrical light distribution. Glare is controlled by the light source concealed within the reflector sheet, while ensuring effective light direction to desired surfaces.

With its 30x60cm dimensions, it creates homogeneous and controlled lighting, especially in corridors, circulation areas, offices, educational buildings, and commercial projects. The asymmetrical light distribution also provides effective results in wall and vertical surface lighting.

With its recessed mounting structure, Comfort GA provides a simple look that integrates with the ceiling surface, combining architectural aesthetics with high visual comfort, offering a functional lighting solution for modern projects.
