

DARKPIT

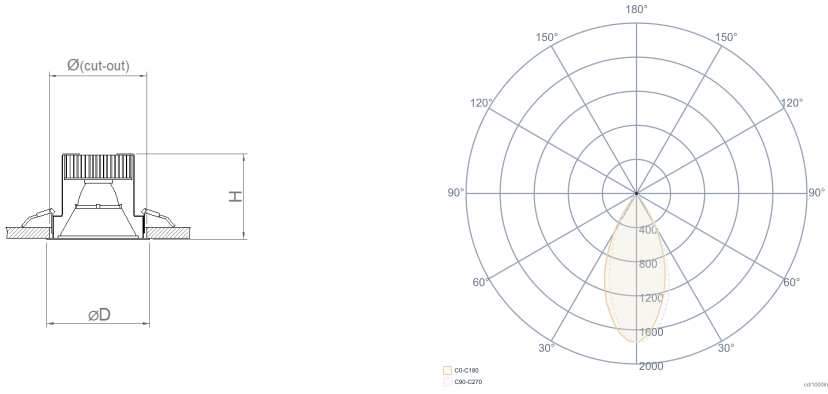

05111

Dark Reflector Spot Fixture

The DARKPIT Series is a compact downlight solution offering high visual comfort with its COB LED technology, optical lens structure, and black reflector design. Its optical system allows for controlled light direction, while the black reflector reduces glare, creating a more comfortable lighting experience.

It is suitable for both general and accent lighting applications in offices, shops, hotels, educational buildings, and commercial spaces. The black reflector design gives the product a modern and technical look, making it an ideal solution for applications where visual comfort is a priority in architectural projects.

Available in Ø82mm, Ø105mm, and Ø130mm diameter options to meet different lighting needs.

General Information		Electrical Info		Lighting Technology	
Housing	Aluminyum	Power	10W-19W	Light Output Angle	45°
Frame	Metal	Power Factor	>0.95	UGR Value	UGR ≤ 19
Optics	Reflector	Light Source	COB LED	CRI [Ra]	CRI ≥ 80
Optics	Transparent Symmetrical Lens	Cabling	Halojen-Free	Color Bin Value	Mc Adams ≤ 3
Paint	Electrostatic Powder Coating	Input Voltage	220-240V AC / 50-60 Hz	Optional	
Insulation Class	Class II	LED Driver	Constant current		
Product Dimensions [mm]	Ø92/Ø118/Ø141x95/102/120(H)	Ambient Temperature	-20°C / +50°C		DALI / 1-10V
Mounting Type	Recessed	LED Lifetime L70	>50.000 Hour		CRI>90 , 2700K~6500K , Tunable White
Mounting Part	Steel Spring				Emergency Lighting Unit

Order Code	W	Lm	Angle	CCT	ØD x H (mm)	Ceiling Cutting (mm)	Kg
05111.11.30.015	14	1370	45°	3000	Ø118x102	Ø105	0,50
