Simple Form, Flexible Lighting

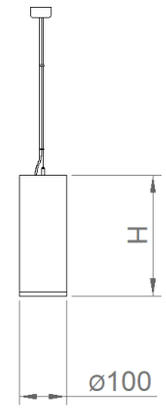

The Modus S Series, with its round form and simple design language, offers a minimalist and elegant lighting solution for modern spaces. Its body structure, which can be produced in different heights, allows for project-specific design alternatives, while interchangeable optical lens options enable the achievement of different light angles.

Thanks to its controlled light distribution, it offers an effective solution for accent and focus lighting. With its sporty and modern appearance, it stands out as a decorative lighting element in architectural projects. Its aluminum body, with various color options and optical alternatives, adapts to flexible lighting scenarios in offices, social areas, shops, and commercial projects.
