Low Glare, Maximum Comfort

Epic-T is a surface-mounted lighting solution developed with a focus on visual comfort, featuring a micro-optical structure and low glare. Its deep-cell optical design conceals the light source while providing homogeneous illumination with a wide 80° beam angle. With a UGR≤19 rating and Class II electrical protection, it offers comfortable and safe operation.

It can be applied in various combinations with white or black micro-reflectors and white or black housing options. Its surface-mounted structure makes it an ideal solution for applications without suspended ceiling spaces, while its compact dimensions and four-cell optical design combine a modern look with high performance in offices, shops, hotels, and commercial projects.
