Professional Ray Spotlight with Zoom Optics

Pivot is a professional track spotlight with an adjustable light angle (zoom) of 17°–60° to adapt to varying lighting needs. A single fixture allows for both narrow-angle accent lighting and wide-area illumination, easily adapting to different spatial scenarios. Thanks to its aluminum injection housing and high-quality optical system, it highlights objects and surfaces at the correct angle in museums, shops, showrooms, galleries, hotels, and architectural interiors. With a high color rendering index (CRI ≥80) and low glare level (UGR ≤22), it offers natural color perception while maintaining visual comfort.

With its steerable structure and adjustable optics, Pivot provides a flexible, aesthetic, and professional lighting solution for projects.
