

Steel Mounting Kit

72431

This stainless steel suspension wire and mounting kit is used for the secure and practical mounting of trunking lighting systems to the ceiling. Thanks to its steel mounting brackets, it offers long-lasting use and high mechanical strength.

With various suspension length options, it adapts to different ceiling heights and offers quick installation, shortening setup time. It is a complementary mounting accessory that ensures the safe, robust, and aesthetically pleasing application of trunking systems in warehouses, logistics centers, production facilities, supermarkets, and large commercial areas.
