Minimal Size, Maximum Emphasis

TINY 040 is an ultra-compact spotlight solution that combines minimalist design with performance, featuring a Ø40mm body diameter. Despite its small size, its controlled light distribution and simple appearance allow architectural details to stand out.

Its aluminum injection body, metallized reflector, and transparent lens optical system offer efficient and long-lasting use. The UGR≤19 value enhances visual comfort, and the 39° light output angle creates effective illumination. Its compact structure provides a solution for narrow ceiling details and delicate applications. Developed for jewelry stores, shop windows, hotels, residential projects, boutiques, niche lighting, and decorative applications, the TINY 040 Series creates a powerful accent effect despite its small dimensions.
