Lightweight and Durable Waterproof Lighting

Draw IP65 combines aesthetic appeal with a high level of protection thanks to its slim and compact design. Its CO-EX extruded PC housing offers a lightweight, durable, and corrosion-resistant structure.

The product features an aluminum inner profile where the LED modules and driver are mounted. This structure provides heat management, increasing LED lifespan and supporting mechanical strength. Maintenance and servicing are easily performed thanks to the screw-on side cover system.

It is reliable and long-lasting for corridors, technical areas, parking lots, production areas, warehouses, and humid environments. Its IP65 protection level provides high resistance to dust and moisture.
