IP65 Industrial Lighting Luminaire

Waterline 080 Series is a durable lighting solution developed for demanding environments, featuring IP65 and IK10. Its aluminum body and cover construction provide high mechanical strength and long-lasting performance. The specially designed diffuser with an integrated silicone gasket ensures reliable protection against dust and moisture, enabling the luminaire to achieve its IP65 protection rating. At the same time, it delivers uniform and comfortable illumination, enhancing visual comfort.

Metro stations, high-speed rail platforms, tunnels, pedestrian underpasses, parking facilities and industrial environments. With different lengths, color temperature options and control alternatives, it can be adapted to project-specific requirements.
