Ikizler Lighting

has been engaged in production and R & D activities in the lighting sector since 1982 and continues its investments with the vision of sustainable growth in the domestic and international lighting sector.

Ikizler Lighting, established in 1982, is an ISO certified lighting manufacturer based in Turkey. Ikizler is specialized in technical lighting for commercial & industrial projects, with a wide range of lighting fixtures produced in its factory located at Sakarya, Turkey. Ikizler's products reach to 4 continents and over 60 countries as we have wide experience in export and participated in many reputable projects; from hospitals to shopping centers, education facilities and industrial places. Ikizler works on project sales, distribution & retail and OEM – private Label sales channel for major clients. Our production facility possesses all digitally controlled machinery and a fully equipped lighting laboratory. Design, development and production processes are in-house operated and only selected components from worldwide known brands are used.

Ikizler gives utmost importance to R&D activities and has many proud design awards, including Red Dot Good Design. Ikizler also closely tracks the trends and newest technologies – as Human Centric Lighting, Acoustic Lighting and IoT-enabled products.

export countries

Ikizler's state of art production facility is built on 15.000 square meters closed area and process is being controlled by automated machinery. With the digital controlled machines, ESD protected assembly lines, electro-static powder painting line and our own tooling shop we are able to produce top quality lighting fixtures with fast & accurate delivery times.

Our factory possesses the following production equipments

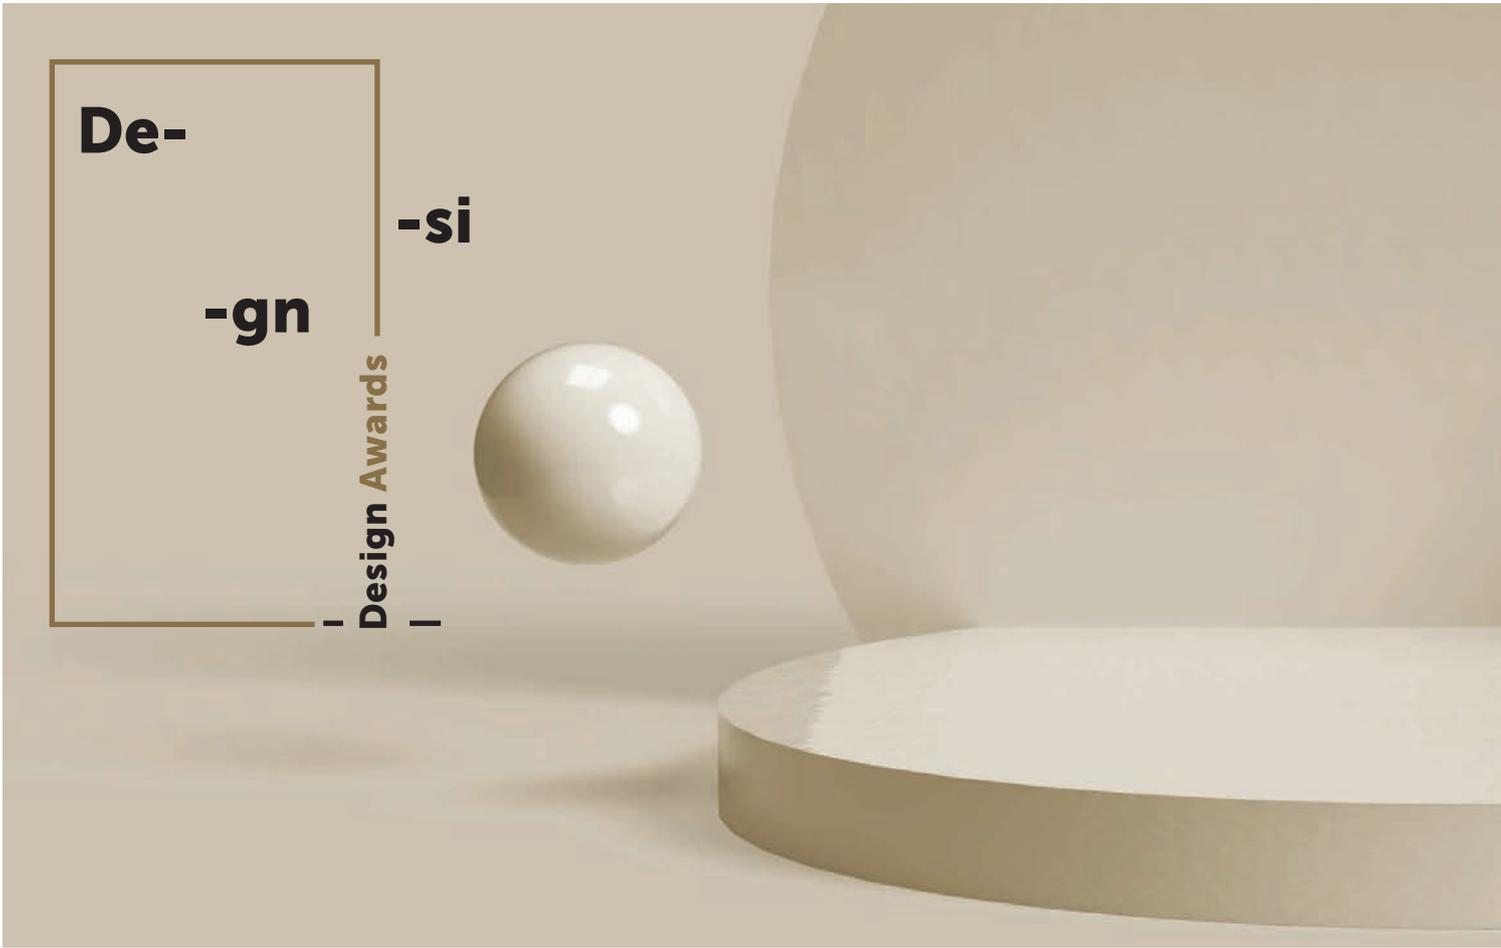

- Metal sheet-processing center
- Extruded aluminum profile processing center
- Argon-welding center
- Mold workshop
- Electrostatic powder painting center
- Sealed silicone gasket application center
- ESD protected assembly lines
- Warehouse & logistics center

Accredited by ISO9001, ISO14001, ISO45001 our working process is highly structured and optimized. We have adopted Total Quality Management System in all processes and also certified our products with ENEC, CE and CB certifications.

Thanks to our in-house laboratory, we are able to make all lighting related tests as goniophotometry, IP, IK, endurance and thermal analysis.

Innovation is one of the major consisting of us, and we have a great R&D team build of young & creative designers and engineers. We also work in collaboration with architects and lighting designers for concept ideas. Thanks to the studies, we have many design awards, including prestigious Red Dot.
